

ISO 45001:2018 Implementation Training Course Details

October 14, 2022

Overview

The 2.5-Day ISO 45001:2018 Implementation training course provides a deep look into the ISO 45001:2018 Occupational Health and Safety Management Systems standard, focusing on two areas:

- The foundation of ISO 45001:2018 based on the common framework adopted by all ISO standards; and the High Level Structure (HLS), common text and common terminology.
- In-depth overview of each clause of the standard, explaining what the standard says, how to implement the standard in the real world, and how to audit it.

The course is filled with practical exercises and real application examples, to help participants develop a hands-on understanding that will facilitate the implementation of a world-class Occupational Health and Safety Management System.

Learning Objectives

By the end of the course, participants should have attained knowledge and understanding of the following concepts:

- The common framework of the ISO management system standards, including the High Level Structure, common text, and common terminology.
- How to apply the Process Approach to identify the organization's core and support processes.
- The necessary steps to implement a brand new Occupational Health and Safety Management System.
- Each of the ISO 45001:2018 standard's clause requirements, how to implement each of these clauses in the real world, and how to audit them, including:
 - Consultation and Participation of Workers
 - Hazard identification
 - How to determine the risks and opportunities within the context of the organization, within the hazards identified, as well as within the organization's processes.
 - How to determine the legal requirements.
- The certification process.

Prerequisites

The ISO 45001:2018 Implementation training course does not have any prerequisite courses.

For individuals with little or no previous knowledge of ISO 45001 or Health and Safety Management Systems, who would like to maximize their knowledge; we recommend Mireaux's Fundamentals or Advanced Document Control courses as a preamble and introduction to management systems.
